

FOREMOST BUILDINGS INC.

WORKING WITH YOU!

WORKING WITH YOU!

Working with you is more than just a slogan, it is our very essence. We value you as a customer and go to great lengths to provide you with buildings or building products that **meet your needs** whether they be aesthetic and/or functional in nature.

Our highly experienced group of **District Managers** will work with you to help determine your building or component needs. They will help you choose from a very wide array of available products to provide the best balance of quality, aesthetics, and functionality **appropriate to your needs and budget**. They will work with you from beginning to end to make sure your project is a complete success.

Your needs are Important to us from the beginning of the process. We generate rapid and accurate quotations, **based on your input** or architectural plans and specifications.

Our experienced engineering department uses state-of-the-art computer programs and a personal touch to turn **your unique set of desires and needs** into fully engineered, custom drawings for permits, erection and fabrication.

Careful layout and up-to-date fabrication methods accurately take your building from fabrication drawings to **your custom building**, ready for shipment.

Our customer service people are with you from order entry to completion and beyond. They work diligently to help make our processes seamless and to anticipate problems early on, when they can easily be solved.

Our **hands on management** is committed to providing you, the customer with the **total team effort you deserve**. With the flexibility to quickly make necessary changes, our management is the first and final link in the chain of events leading to **total customer satisfaction**.

Components

We offer a wide array of building components including purlins, girts, roof panels, fasteners and accessories. Whether you need economical ribbed panels, upscale concealed fastener panels, an architectural standing seam roof, insulated panels or aggregate faced panels, we are your best source. If you are having difficulty in finding a particular panel, chances are **we can find it for you.**

While most companies selling components will ask you for your cut list, we will do **takeoffs** for you and create detailed **erection drawings**. Architectural roofs with hips and valleys, for instance, are made much easier with Foremost's involvement.

Self Storage Buildings

Our flexible design program allows us to offer a multitude of widths and heights and door sizes for this specialized market. Foremost provides **complete packages** including interior partitions, doors and insulation.
