

Value Added Services – Buildings

- **District Managers in Your Area** – Are there to serve you with product knowledge, assistance with product application and problem solving.
- **Experienced in House Personnel, Committed to Customer Service** – Help is there and accessible when you need it.
- **We Do the Estimating** – You won't have to deal with learning complex computer programs.
- **Fast Turn-around on Estimates** – Most quotes get back to you in 2-3 days, rather than a week or more, helping you get to your customer quickly.
- **Engineering / Design Solutions** – We will work with you to develop the most efficient design.
- **Quick Turn-around on Anchor Bolt and Permit Drawings** – Less waiting means a faster start for your project.
- **Plans Sealed by a Licensed Professional or Structural Engineer** – Engineer's seal in the state the building delivers to provides assurance of proper design and facilitates permit acquisition.
- **Clear, Easy to Use Erection Drawings** – Erection drawings are specific to the job, showing clear details and full panel layouts.
- **Electronic Transfer of Drawings** – Email can speed your receipt of drawings.
- **Free Panel Samples** – In limited quantities for architectural or customer approval.
- **Free Literature** – You won't have to pay for brochures or color charts.
